

EXPLORING THE EXTERIOR OF HMS VICTORY

I spy ...

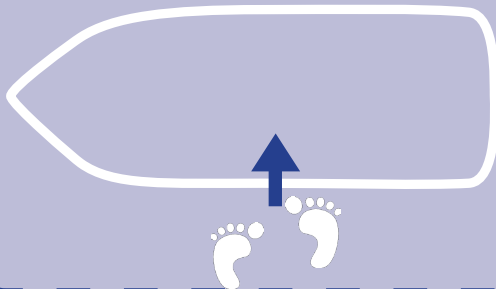

Take a walk around the outside of HMS Victory, what can you see?

Follow the footprints for clues on where to look!

How many guns can you count? I spy

I spy gun ports,
What are they for?

I spy ... the ship's masts. Imagine how big the sails were.

Fantastic Fact!

The sails on HMS Victory measured 5468.4 metres square. That's a third bigger than a football pitch!

I spy ... a little boat in front of the ship. What was it for? How did they get it off the ship?

How many oars does it have? How many sailors did they need to row it?

I spy ... an anchor. How do you think this was lowered and lifted? Why is there more than one?

EXPLORING THE EXTERIOR OF HMS VICTORY

Fantastic fact!

The rigging is 26 miles long, the length of the Channel Tunnel!

I spy . . . lots and lots of rigging. Imagine climbing it all the way to the top.

I spy . . . lots of colour.

What am I looking at?

I spy . . . roman numerals. Why are they here and what were they for?

I spy . . . the back of the ship. Why is it so fancy?

I spy . . . some big windows. Which room do they belong to? Who used it?

I spy . . . 3 lanterns at the back of the ship. What were they for?

EXPLORING THE EXTERIOR OF HMS VICTORY

I spy . . . some flags.
How many are there?

I spy . . . flags

What are they called?

Can you spy a newer war ship?
What are the differences?
Is there anything that is the same?

How many men do you think live on this ship?

*I spy with my little eye one big ship.
Now take a look inside and see
what else you can find!*
